Legion Schedules 2 Spook Parties, Membership Drive

By WALTER HOLLAND

In keeping with the spook and ghost season, Albany Post No. 292, American Legion was making plans this week to stage a horror night for members Friday evening at the Veterans' Memorial Building.

Entertainment Chairman Dan Karns guarantees that the spooks will be around to haunt the building and the surrounding grounds. As an added attraction for the evening, Bela Lugosi, the Ape Man, is scheduled to appear.

Another Halloween party for members and the Auxiliary will be held at the Memorial Building on October 28. This party promises to be full of surprises as the committee has been working out details in secret.

The State Department notified the Post this week that our membership goal for the year ending July, 1950 will be 332, the same as 1949.

Membership Chairman Art Carlson has announced that the Post's 354 members will be on the committee. The membership credentials will be passed out at the Friday night meeting.

"The Post will have the 332 members by Armistice Day next month. The Post will really have cause not only to celebrate the closing day of World War I, but can celebrate membership achievement on the evening of November 11," Carlson said.

The dance committee is headed by Don Karns, assisted by Howard F. Hill, Jimmy Sartain, Walker Lyon, Godfrey P. Hanson, Le Roy W. Holland, Art Carlson and Jack Hamilton.

The committee has announced that they already have over 100 reservations for the revival of this social event.

Albany Group Opposes Daylight Saving Time

Several Albany businessmen expressed the opinion this week that they will oppose Proposition No. 12, "The fake time-saving scheme," on the November ballot.

They are opposing the measure on the ground that "the Wall Street Clock Fixers selfishly persist in trying to fix clocks for everyone." They pointed out that the issue has been defeated time after time by Californians throughout the State.

In the last election, Alameda County voted against daylight saving time 155,951 to 73,105. Contra Costa County defeated it 28,633 to 11,036.

Alma and Tommie Fitzpatrick, referee emeritus.

Membership Chairman Roy Henderson said club memberships to date total 225.

Soroptimist Convention Opens Friday

Albany Soroptimist will join the 100 Soroptimist Clubs in the Southwestern Region Friday, Saturday and Sunday for the annual fall conference to convene at the Hotel Shattuck in Berkeley.

The Albany group is planning a 100 per cent attendance, according to President Nell Moore. Official delegates from the local club are President Moore, Senior Delegate Claire McGaw and Junior Delegate Sally Nelson.

Mrs. Emily N. Ziegler of San Diego, regional director, will preside. Berkeley will be the hostess club for the meeting.

An informal reception at the Hotel Shattuck will open the Conference. Following the opening ceremonies Saturday morning, delegates will move to the Little Theatre and Veterans' Building for business sessions.

Social events on the agenda will be a luncheon Saturday noon with the Soroptimist Club of Oakland as hostess, followed Saturday evening with a formal banquet at the Hotel Claremont.

The Albany club has charge of decorations for the banquet at the Claremont. Mrs. May Ellis Olson is chairman of the committee, assisted by Kay Fritz, Nell Moore and Ruby Kampe.

Two important issues to be presented for discussion at the conference are: 1. The proposed organization of five districts within the region; 2. The proposed regional project of establishing and maintaining a home for retired Soroptimists.

Approximately 600 members and delegates are expected to attend the conference representing active clubs in California, Nevada, Arizona and New Mexico.

Overhead Lights For Intersection

Overhead lights will be installed within the next few days at the Hoffman Blvd. and East Shore Highway intersection, according to an announcement by City Engineer E. A. Tarr.

Tarr pointed out that the intersection has been classed by both the Police and Engineering Departments as dangerous for some time.

Bank Bookkeeping Machine Given To Albany High

The mysteries of balancing checkbook stubs—from the bank's point of view—will become clearer to Albany High School students through the use of a Burroughs bank bookkeeping machine given to them by the Mechanics Bank of Albany.

The machine was formally presented to Principal Charles Moore Thursday morning by Duke M. Salce, manager of the Albany office.

The bookkeeping machine has been overhauled and serviced and should provide a long period of practice in posting checks and bank statements, according to bank officials.

Phyllis Haggard, bookkeeper at the Albany bank, is assisting on the demonstration of the machine. She was a member of the 1949 graduating class at Albany High School.

A supply of cancelled checks and ledger sheets accompanied the gift.

The machine will be used by approximately 75 students in Wilfrid Treacy's business machine and bookkeeping classes. It will also be available for the evening school classes of Wirt King on Monday and Wednesday evenings.

The Mechanics Bank in Richmond presented machines to the Richmond and El Cerrito High Schools.

A maximum of 200 reservations will be accepted. The committee in charge advised those wishing to attend to get their reservations in early.

Tickets for the anniversary party will be \$3 per person.

They are Frances Savero, 23; Angelo Michael Cervone, 23; Ernest LeRoy Davidson, 28, and Lillian Gonzales, 20, all of San Francisco.

50 Per Cent Increase for Householders

Garbage collection rates for Albany householders will go up 50 per cent on November 1.

The City Council Monday night approved a new contract with the Oakland Scavenger Co. calling for the hike. The commercial rates will remain the same.

The contract was approved four-to-one, with Councilman Raymond F. Cleary casting the dissenting vote. Cleary opposed the measure because the company had not proved to his satisfaction that it needed an increase.

The new residential basic rate will be 75 cents a month for weekly pickups, as compared to the present rate of 50 cents.

An escalator clause was included in the contract allowing for the adjustment of rates, subject to the cost of living index of the Bay Area compiled by the Bureau of Labor Statistics of the U. S. Department of Labor.

Under the new contract the city will receive \$300 a month where it previously received \$225. The contract, running to January 1, 1956, replaces an agreement which would have expired January 1, 1953.

The Council rejected a rezoning application for lots 3 and 4, block 2 Cerrito Hill Tract, on Albany Hill. Elwyn A. Crews, of 1003 Solano Ave., requested that the property be rezoned from first to second residential for the purpose of building a duplex.

ALBANY SOROPTIMIST SCRIBBLINGS

We wonder if it will work again? We hear via the grapevine that Tiny Kampe has been fined twice at Rotary for being mentioned in this column. Maybe a split of the gratuity is in order, Rotarians. To encourage a 100 per cent registration at the Regional Conference meeting in Berkeley over the week-end, President Nell read the official program. Members looked a little crestfallen when it was disclosed that the Albany delegates will not be called first on the roll or occupy the usual front seats. It

Lt. Rogers delivered a very enlightening talk on the work being done in Oakland's juvenile division. He said that the work of a police department reflects the demands of a community, and that specialization of juvenile delinquency was of fairly recent demand. "Let us strive to prevent crime in the youth of our day, rather than be faced with handling a criminal after he's grown," he concluded.

Christian Science

John: "Then said Jesus to those Jews which believed on him, If ye continue in my word, then are ye my disciples indeed; And ye shall know the truth, and the truth shall make you free" (8:31, 32).

"Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If the change called death destroyed the belief in sin, sickness, and death, happiness would be won at the moment of dissolution, and be forever permanent; but this is not so. Perfection is gained only by perfection" (p. 290).

Albany Girl Wins Scholarship From Polio Foundation

Miss Frances J. Wakeman, 510 Carmel Avenue, has been awarded a scholarship in physical therapy under the nationwide professional training program of the National Foundation for Infantile Paralysis. Dan Marovich, Northern California representative for the Foundation announced today.

Miss Wakeman is one of 116 California residents to receive a scholarship since the National Foundation expanded its physical therapy program in 1945 to help combat a critical shortage of qualified personnel in the physical therapy field.

While 1241 scholarships have been awarded to date through the National Foundation alone, it is estimated that 15,000 physical therapists are needed to meet the ever-increasing demand for their highly-skilled professional services. Since the first physical therapy appropriation of \$55,000 was made in 1942, the organization has allocated more than \$1,800,000 in March of Dimes funds to support the program.

Miss Wakeman is studying at Stanford University, one of many schools and institutions throughout the country approved for this type of training by the American Medical Association's Council on Medical Education and Hospitals.

Studebaker does it again!

The new 1950 Studebaker with "next look" styling has already set a new all-time sales record!

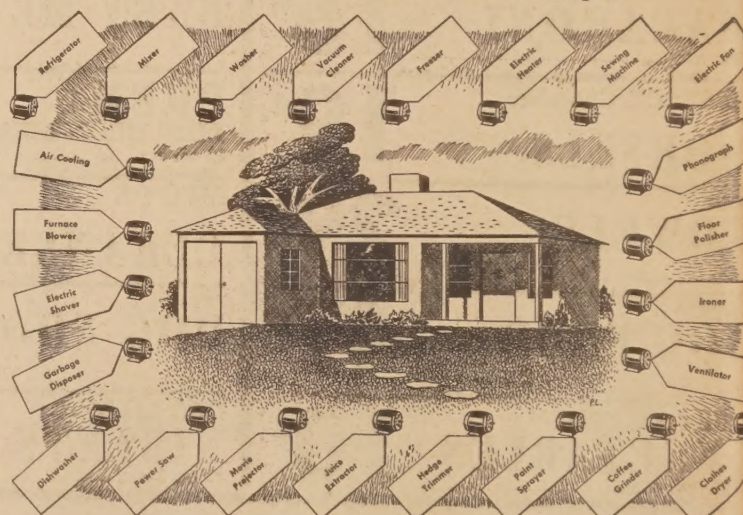

More people bought new Studebaker cars from Studebaker dealers last month than in any previous month in history!

Studebaker's September was its biggest month ever both in production and in sales!

STUDEBAKER'S REALLY ROLLING...WITH THE "NEXT LOOK" IN CARS!

How many small motors are working for you?

Have you counted them lately?

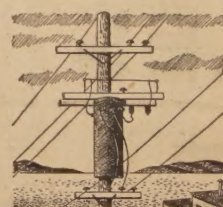

Electric motors do more work in your home than you may realize. Motor-driven devices are the "chore boys" in California homes and gardens. Their usage is high because electric rates here are low... much lower than the national average. For instance, electricity runs a refrigerator

or freezer for less than five cents a 24-hour day. Your kitchen is fanned free of cooking fumes—electrically—for about three cents a week, and a motor in an electric dishwasher "does the dishes" for just a fraction of a penny a day for electricity.

Electricity works early and late in your home for just a few cents a day. A penny's worth of electricity runs an electric clock at your breakfast table accurately for five days or toasts twenty slices of bread or brews nineteen cups of coffee.

Electrical servants do so much yet cost so little, despite our greatly increased costs of producing and delivering electricity to your home. The price of power poles alone is up more than 100 per cent; transformer costs are up 30 per cent.

P.G. and E. Service—does so much...costs so little

For the record

Your household electricity is a manufactured product. It is raw, bulk power when it leaves a generating plant at 220,000 volts. It is then transformed as often as FIVE times before it becomes the "household size" electricity so indispensable in your home.

**Stagecraft Class
Prepares Set for
'Growing Pains'**

"Growing Pains," the amusing three-act play concerning the growing-up pains of a group of high school students, will be presented by the junior class of Albany High School on November 3 at the school auditorium.

The fall production is under direction of Richard Hillman.

Members of the stagecraft class are now preparing the set under the supervision of Frank Turner. In addition, they study the principles of stage lighting and design, the mechanics of scenery changing, the procedure for assembling stage properties, and the meaning of all stage terms in common usage.

The class is also constructing a miniature stage-in which they can obtain actual stage effects.

Members assisting on the setting for "Growing Pains" include Royal Boggess, Eileen Bowen, Ken Cox, Bob Flavin, Ray Gardner, Charles Gunther, Shirley Johnson, Victor Lindamood, Mary Mathews, Nancy Mattos, Rose Mazzei, Jo Ann McHone, Marie Oliverio, Don Symington, Gene Turner, George Wainman and Don Diani.

**Frank Hill Elected
Cornell Student Prexy**

Climaxing a week of vigorous campaigning, three Cornell seventh graders were elected recently to positions on the Student Council.

Officers elected were Frank Hill, president; Herbert Townsend, vice-president and Rose Marie Cabral, secretary.

The new president will soon call a meeting of the Council, composed of the president and secretary of each class in the north building. Runners-up in the Council election will hold that office for the seventh grade. They include Norma Monti, president; Larry Switzer, vice-president and Janet Hood, secretary.
